

Position Title: Scale House Technician

Department: Operations

Reports To: Facility Manager

Exemption Status: Non-Exempt

Position Purpose:

The Scale House Technician is responsible for the collecting and testing of RRC-approved oil & gas associated waste entering the landfill site, and interfacing with our POS system to input the information. This position requires a self-motivated individual, capable of processing complex waste processes while adhering to the highest safety standards.

Essential Job Functions: The Scale House Technician must be able to perform all of the following duties and responsibilities with or without a reasonable accommodation.

- Collects waste samples from incoming trucks in the scale house, processing area, and landfill.
- Tests incoming waste for properties such as weight, hydration, and solids content.
- Inputs data from testing into our system for regulatory and billing purposes.
- Interfaces with both the scale house and field personnel to ensure all loads are tested.
- Works to ensure the accuracy of all data entry.
- Maintains cleanliness of work areas.
- Accomplishes multiple tasks within established timeframes.
- Identifies and reports problems; gathers needed information to develop solutions.
- Reports customer and/or supplier problems to management and responds promptly to customer needs.
- Follows safety and security procedures; proactively addresses and/or reports potentially unsafe conditions.
- Will serve as the back-up for the Scale House Operator.
- Other job-related duties that may reasonably be assigned.

Education/Experience:

The minimum educational background of an applicant to this position is a high school diploma or G.E.D; previous experience working at sites regulated by OSHA. Ideal candidates will have oil and gas industry experience; working knowledge of computers, computer software and computer systems.

In addition, a qualified applicant will have:

- Ability to read, write and speak English concisely.
- Ability to build good working relationships and work as part of a team.
- Ability to work different shifts on a 24/7 operation; including, weekends and holidays on a routine basis.

Knowledge and Competencies:

- Communication -- Effectively conveys information to customer and coworkers; listens to and understands others; gets clarification when necessary; responds informatively to questions; interacts with all levels of organization; presents data effectively; reads and interprets written information.
- Customer Service -- Within reason, does what it takes to meet expectations of internal and external customers; acts in a professional, courteous and cooperative manner towards customers and coworkers.
- Dependable -- Is someone supervisors and coworkers can count on; follows through and does what he/she says he/she will do; shows up for work on time and adheres to the established work schedule.
- Oil and Gas Industry Knowledge -- Knowledge of waste that may or may not be accepted by the landfill.
- Endurance – Sticks with task until it is completed in the most productive and safe manner; works through challenges that come up.
- Ethics – Adheres to the policies and rules set forth by Petro Waste Environmental; does not allow himself/herself or customers to bend the rules or cut corners; is trustworthy and honest.
- Multitasking – Shifts back and forth as needed between two or more activities or customer requests; can do more than one thing during the same time period.
- Record Keeping – Conducts and keeps records regarding financial transactions with customers; records information using assigned forms and computer systems.
- Safety Orientation – Follows and promotes Petro Waste’s safety rules and procedures; recognizes hazards and anticipates danger; does not take inappropriate risks.
- Pride – Feels a sense of self-satisfaction in a “job well done”; makes sure that every little aspect of the overall task is done correctly; strives to achieve all goals.
- Office Equipment – Knowledge of office equipment including but not limited to, computer, phone, fax machine, copier, Microsoft Office including Word and Excel and calculator.

Work Environment:

Scale House Technician will be expected to perform physical activity, such as, walking and standing on hard surfaces for an extended period of time, climb stairs and ladders, open and close valves, and be able to lift/carry/push/pull up to 50 lbs. Will be regularly exposed to loud machinery and have some exposure to hazards and extreme weather conditions. Position may also be required to stand for long periods of time while performing their duties.

The above description is meant to provide an overview/summary of the nature and level of work being performed; it should not be construed as an exhaustive list of all responsibilities, duties and requirements of the job. Petro Waste Environmental reserves the right to modify the content formally or informally, follow any other job-related duties/functions requested by their supervisor. Further, all employment at Petro Waste Environmental is of an at-will nature and, as such, the company reserves its right to terminate any position or employee (with or without notice and with or without cause) within its discretion.
